

Acculube™ Automatic Rope Lubricator and Cleaning Kit

Introducing the Acculube automatic rope lubricator/cleaner. It's a set-and-forget way of maintaining traction ropes for up to a year.

Acculube™ Draka's Acculube rope lubricator/cleaner is quickly and easily assembled in the machine room. Simply install it so that the brushes are in contact with the ropes, set the lubricators to the proper time setting for your application (one year for standard indoor elevators, six months for exterior or high-contaminant environments) and walk away knowing that your hoist ropes are being consistently treated and cleaned as the elevator operates.

The lubricator reservoirs come pre-filled with our specially-formulated DrakaLube™ rope treatment. Acculube 300 comes with all the parts you see here - only two mounting bolts are needed (Acculube 200 has only two lubricators).

Features

- Labor and time-saving way to keep ropes lubricated
- No oil spills or splashes in the machine room or the car
- Easy installation
- Constant, reliable lubricant application
- Ropes are continually cleaned by the brushes

Please note that if your ropes are dirty, there will be greasy residue for a short while as the Acculube unit does its job.

Acculube automatic rope lubricators/cleaners

Part number	Description
ACCULUBE 200	Automatic rope lubricator, with three brushes (210 mm • 8.25 inch span), bracket and reservoirs filled with DrakaLube wire rope treatment.
ACCULUBE 300	Automatic rope lubricator, with three brushes (300 mm • 11.8 inch span), bracket and reservoirs filled with DrakaLube wire rope treatment.

Acculube replacement parts
