

MESSAGE FROM CEO

My Vision is for Amzone to be the most innovative and advanced rigging shop in the region; Carrying a name for quality and being a rich source for technical knowledge in our industry. This vision comes from a dream that has been embedded in me from a long line of rope makers since 1884. I am driven by the same passion my forefathers have had for the business of safe lifting.

Amzone International Ltd. continues to make us proud in our work values and what we stand for. Thank you to all our valuable Customers, Suppliers and Business Partners who have supported us consistently through out our years of growth. I personally invite you to explore our potential together.

M. S. Saif
Chief Executive Officer

WE BUILD

A CULTURE OF SAFETY

Amzone International Ltd is committed to a policy of continual improvement to ensure the control of risks to the health & safety of its personnel, contractors, visitors and members of the public, arising from every single activities. With Amzone Testing Inspection Division, we offer a Third Party Inspection for the lifting accessories and equipment in compliance with local and international regulatory standards.

The ultimate goal of our service is to focus in providing accurate solutions to ensure the safety of equipment. Thus, our experience across a wide range of industries exposed our professional services to identify all type of risks that would be eliminated as we provide absolute corrective measures.

We believe and we are deeply rooted in building a "Safety First" culture among all employees for continuous improvement towards the organizational goal which we are passionate to share with our business partners.

Trust us and in our fulfilling years of experience to provide you a cost effective solution for your inspection requirements and we guarantee that Amzone Testing Inspection can truly make a difference.
